STRATHMORE, ALBERTA SEPT. 19, 1917.

Subscription Price, 1.00 per year

LOCAL JOTTINGS

During the past week or so a number of I.W.W.'s have been seen in Strathmore. We have no room for them here.

Mr F. R. Lilly has opened up a real estate and insurance office in the King Edward Block.

The Bori-Hambourg Concert Co., who appeared in the Opera House on Saturday, lived up to their reputation as artistics of an enablity and they had a good reception. It is a ptly we can not get more concerts along this line.

A house-to-house canvass was made this week for funds to provide Christmas Stockings for the Canadian Boys in Hospitals. As a result some \$84, was sent in to headquartsrs and the collectors are deserving of great credit. Mrs. S. F. Hall wishes to thank all those who contributed to the Fund.

Mrs Brophy, of Calgary, who is well known to Striathmore people as a teacher in Plano and Voice Production will be visiting Strathmore every Friday and Saturday. Mrs Brophy has been in Both professional studies and has appeared before some of the leading Boston critics.

With the installation of so many private electric light plant in town, the chances of a gas well are pretty slim. But cur Cuy Fathers, need-set despair. In England trying colline in aut. The colleges may be to see the colleges may be to see the colleges of the colleges may be to see the colleges may be to see the colleges may be used in The colleges may be used in The colleges may be to see the colleges may be used in the colleges may be used in the colleges may be used in the colleges of the colleges may be used in the colleges of the

The sporting population of England are getting more base-ball than they have seen in many moons. But we doubt it "the bally game of roundahs" will ever take on like "evelect of devillan noisy game" and the "silly awases nevals stop for teat odd chap. What?" And tit is so annoying: demmit, to have trumpials call "strike" when you nevals even had bally ball.

A Modern Battlefield

A year wind and realistic picture of a modern buttlefield, was portrayed. Miss. McElhous, who, it will be bunembered, left this country to Frings as a nurse in the Impérial Forces in a recent letter to whom we are indebted for these present of the proper of the property of the property

A Dominion Election in the land goes on to sav: "I am send-sell would not come as a very ing year surprise.

A Red Cross Sock Social will be held in the Opera House on Thanksgivon Day, October 8th. Particulars later.

$oldsymbol{A}$ n n o u n c e m e n t

RELEVEN years ago a few enthusiastic farmers of the West organized a small grain commission company in the hope that they might improve conditions under which grain was sold in Western Canada.
They worked under handicaps and against heavy competition, but succeeded. Later other organizations were formed in Canada, each with co-operation the key-note. What they have achieved is well known. Soon there was a demand for closer co-operation among these companies in their business efforts, and now-

On September 1st, The Alberta Farmers' Co-Operative Elevator Co., Ltd., and The Grain Growers' Grain Co., Ltd., will no longer be separate organizations as hereto-

By a practically unanimous vote of their thousands of shareholders, these companies have joined hands so that they can work together in the interests of the farmers of Western Canada. The problems of marketing the products and supplying the needs of farmers are identical throughout Manitoba, Saskatchewan and Alberta. This union of the two old companies with shareholders run-ning well over 30,000, with assets exceeding \$3,000,000.00, with over 300 country elevators, with terminal elevators at Fort William and Port Arthur, with machinery and supply warehouses in Calgary, Regina and Winnipeg, and with an efficient organization under the supervision of a board of farmer directors having full knowledge of the farmers' needs, provides a company that can give maximum service to Western farmers.

The old companies have appreciated your business and they will be glad to serve you in the future under the name of

Let any of our 300 elevators handle your grain or consign it direct to us. Ship your livestock to our stockyard offices in Edmonton, Calgary, or Winnipeg. Order your lumber, fencing, implements, and other supplies from Winnipeg, Regina, or Calgary. We have offices and warehouses in all three cities.

The Publisher is not responsible for
opinions expressed by correspondents

In our travels around town we have had the suggestion made that we agitate for a Whist Club to be formed during the winter months.

A small membership fee could be charged, which would go towards renting a hall at a nominal fee and the remainder could be used in purthe remainder could be used in pur-chasing prizes. The suggestion is a good one and we pass it on to those of our readers who are in-terested in the formation of such club, in the hope that something

The School Gardens
Our attention was drawn this
week to the gardens at the Public
School. Our informant questions
whether there are any better in the
Province. This is good. The
Papils deserve to be congratulated
on the work they have done.
Training on these lines in their
younger days, will lead our cliters
of the future to take an interest in
town planning and the beautifying
of the small prairie town and the
farm. It is surprising what a
difference a few trees and flowers
make around a place. make around a place.

Chautauqua

Chautauqua
Strahmore clitzens are always
glad to have the opportunity of
hearing anything in the way of high
class entertainment, whether it be
drama, music or art, and the knowledge that Chautauqua will be presented here for three days, will be
gladly received by those who are gladly received by those who are fond of good entertainment. Chau-tauqua has proven the most effec-tive community builder and is broadly educational. It is the greatest leveller of prejudice in church, state and schoel known to modern times. Through the efforts of a number of business men and citizens-who have guaranteed the necessary amount—the residents of the town and district will be en-abled to hear some of the leading artistes of the day.

Roads Club — although not with any great ceremony or boast—are carrying out the plans they had in mind when organized. Those of our readers who have cars—whether mind when organized. Those of our readers who have care-whether to it is a seven passenger or just an every day variety of the "Sir Henry" type—will be pleased to learn that operations have been started on the Calgary road and on the South road. The Public Works Department of the Town Council have also had the good roads "leave "

Safery First

The antiquated idea—prevalent even in this enlightened age—that what was good enough for our an-cestors is good enough for us—is to be found through every branch of to be found through every branch of life, whether it be in private or civic affairs. The fire apparatus with which the town is blessed at the present, is totally imadequate to cope with an outbreak of any great nature. In justice to the business interests and also to the residential section of the town, it is high time the event of not hearing from him to the contrary, the Council would use the check-for \$100 which they held. section of the town, it is high time that the grave danger that stares us in the face was reduced to a minimum. There is no use in locking the stable door after the horse has fled. A sufficiently powerful pump engine and and an adequate water snpply would prove far more effective in quelling an outbreak. "Safety first" is a well known slogan, and has been adopted by a majority of the clitics and towns. Why not adopt the same slogan for Strathmere and protect ourselve by the installation of an efficient free fighting apparatus.

Canada and Conscription

Although to many the Military Service Act—passed in the Legisla-ture, and which will shortly be in operation throughout the Dominion operation throughout the Dominon
—does not seem to conform with
their views, there can be no doubt
in the minds of the majority, that
in order to keep up our supply of
reinforcements, the situation had to
be dealt with in this manner. Volmanhood to the Motherland—has fallen off in a marked degree. Our neighbors to the South—America— profiting by the experiences of the Allied nations who entered the war at the start—have realized the ne-

at the start—have realized the ne-cessity of having an adequate sup-ply of men in reserve who could be called up as needed; and upon their entry into the war immediately en-forced a form of compulsory mili-tary service—a step that should have been taken in Canada from the very outset, had we realized then men money and material—of the nations involved would be taxed to their utmost capacity.

The Limit

Courtesy is often prominent by its absence; but we doubt if it was ever so prominent as on Sunday evening last at one of the local svening last at one of the local churches. Shortly before commen-cing his address the Rev Mr White of Gleichen (who had exchanged pulpis with the Rev Berry for the day) read a note he had received from some member of the congra-gation, asking him, in a terse, blunt manner, not to shout quite so much. To say the least, the write of the note (wheever it he) dis-played aliak of manners and tack played a lack of manners and tar which does not reflect very gre-credit to them. Strathmore ha always been (and will, we hope aways neen (and will, we hope continue to be) credited with bein able to respect "the stranger will in her gates" in a proper manner whether it be a Prince, a Ministe of the Gospel, or a hobo. We hop the rev gentleman will not measur the intellectual calibre of the rest o our citizens by this act, but will look upon it as one of those assinin displays which are occasional developed, in a fit of mental aber-tion, in the human race
